

Brian D. Looney, O.D., F.A.A.O.
Doctor of Optometry

Dilation of the pupil

Dilation is important for your health and well-being. It improves the doctor's ability to examine the internal structures of the eye for signs of disease. After dilation, you may experience sensitivity to light and difficulty focusing on near objects. Dr. Looney recommends dilation.

There is no additional cost for dilation.

Yes, I agree to have my eyes dilated.

No, I request not to have my eyes dilated.

I would prefer to discuss with doctor.

iWellnessExam®

The iWellnessExam® is a quick, non-invasive scan that allows our doctors to see beneath the surface of your retina. This unique technology can help our doctors detect vision-threatening diseases (including macular degeneration and glaucoma) in their early stages, when they are most treatable.

As part of your pre-testing, our technician will perform the iWellnessExam which your doctor will review with you during your examination today. The \$25 charge is typically not covered by your vision or medical insurance, so this will be added into the cost of your visit today. Any questions you have about iWellnessExam and the results of the test can be discussed with the doctor during your examination.

Thank you for choosing our practice to protect the health of your eyes!

Yes, I agree to have the iWellnessExam®.

No, I request not to have iWellnessExam®.

I would prefer to discuss with doctor.
